Greetings:

To introduce you to our line of courseware we have enclosed an abbreviated manual for your review. If you find the need for courseware tailored for your organization, we can assist in developing customized titles to fit your requirements.

Our current titles include:

- MicroStation V8 2004 Edition Fundamentals
- MicroStation V8 XM Edition Fundamentals
- MicroStation V8i Fundamentals
- MicroStation V8i (SELECTseries) Fundamentals
- MicroStation V8 XM Update
- MicroStation V8i Update
- MicroStation V8i (SELECTseries) Update
- MicroStation V8i (SELECTseries) Power Tools
- MicroStation V8i (SELECTseries) Geographic Tools
- MicroStation V8i (SELECTseries) Print Organizer
- Bentley CADscript Fundamentals
- Bentley Map V8i (SELECTseries) Fundamentals
- InRoads Site Design
- InRoads Survey

Some titles are available in civil or architectural editions.
Visit ***http://envisioncad.com/courseware*** to review our selection.

All of our courseware can be purchased as traditionally printed hard copy manuals. Select titles can be purchased as eBooks which are delivered as managed digital copies.

You can choose to use our manuals for internal training, self-paced instruction or have us deliver instructor-led training at your location, at our facilities, or by virtual classroom.
Our list of enthusiastic clients continues to grow and if you are one of those whom we have had the honor of serving since 1996, thank you! If you have not benefited from our training or consulting services yet, please keep our contact information handy for reference in the event you, or someone you know, are interested in a knowledgeable resource to meet your needs.
Sincerely,

Ron

Ronald Brys, RLS
President, EnvisionCAD

P.S. We always enjoy the opportunity to share our expertise with others. Visit our website to receive our free e-newsletter and benefit from monthly software productivity tips.

EnvisionCAD– About Us

EnvisionCAD is a provider of training solutions for MicroStation® and select InRoads® products. We also use our expertise to assist organizations managing data and workflow tasks via consulting and/or outsourced CAD management roles. Additionally, we provide visualization services for design concepts and alternatives. Services include but are not limited to: Illustrations, solar studies, line-of-sight studies, and animations.

We offer training at our headquarters in Madison, WI, at satellite locations around the country, on-site at your location or by virtual classrooms.

For additional information about our services, prices, or training schedules, visit our website at **EnvisionCAD.com** or call 1-608-836-3903.

EnvisionCAD– Guaranteed Training

Our guarantee is simple.

Any student may retake any class, at anytime, and for any reason without additional charge.

Bentley Systems, Inc.

Bentley is a technology provider for software solutions used to design, engineer, build, and operate large constructed assets such as roadways, bridges, buildings, industrial facilities, power plants, and utility networks. Bentley's reach spans the globe, serving more than 300,000 professionals and more than 20,000 companies and organizations.

To contact Bentley visit **www.Bentley.com** or call 1-800-BENTLEY.

Introduction

Welcome to MicroStation V8i (SELECTseries) Update training. This course was developed to help users that are familiar with either MicroStation V8 2004 or XM Editions migrate to V8i (SELECTseries). The goal of this manual is to have the user familiar with the new interface and tools so he or she can be productive with the new software in a short amount of time.

Document Conventions

Several conventions are used throughout this document to indicate actions to be taken or to highlight important information. The conventions are as follows:

Item	Meaning
Place Text	a command name or a file to select
Tools > Options	a command path to select – usually from a pull-down menus
Key-In	a prompt to enter data with the keyboard
Document name	italics in this style are used when referring to another document
Note:	Text information about a command or process to pay particular attention to
Emphasis	an important word or phrase
1. Numbered Steps	an action to be performed as part of a lab activities
<D> or **Data**	press the data button on the mouse
<R> or **Reset**	press the reset button on the mouse
<T> or **Tentative**	press the tentative button on the mouse

SERVICES

Consulting

We can help you analyze what software to buy, what systems to run, and what equipment and configurations to implement. We can also help establish CAD standards and procedures, develop custom applications, provide ongoing user support, workflow optimization and project assistance.

Programming

Maximize your productivity with our custom programming services. Eliminate tedious and repetitive tasks. Reduce errors. Add new functionality. Integrate your Autodesk and Bentley products with other applications.

8517 Excelsior Drive, Suite 102, Madison WI 53717 ph 608-836-3903 fax 608-662-9043 envisioncad.com
