## **The Envision Group – About Us**

The Envision Group is a provider of training solutions for MicroStation and select InRoads products. We also utilize our knowledge to assist with organization managing data and workflow tasks through consulting and/or outsourced CADD management roles. Additionally, we provide visualization services that assist in the conveyance of design concepts and alternatives. These services include but are not limited to: Illustration, solar studies, line-of-sight studies, and animation.

We offer training at our headquarters in Madison, at satellite locations around the country or on-site at your location.

For additional information, pricing, or schedules, visit our website at [envisioncad.com](http://envisioncad.com) or call 1-608-836-3903.

## **The Envision Group – Guaranteed Training**

Our guarantee is simple.

**Any student can retake any class at anytime for any reason without additional charge.**

## **Bentley Systems, Inc.**

Bentley Systems, Inc. is a technology provider for software solutions are used to design, engineer, build, and operate large constructed assets such as roadways, bridges, buildings, industrial and power plants and utility networks. Bentley's reach spans the globe, serving more than 300,000 professionals and more than 20,000 companies and organizations.

To contact Bentley visit [www.Bentley.com](http://www.Bentley.com) or call 1-800-BENTLEY.

## Introduction

Welcome to Bentley Map V8i Fundamentals training. This course introduces users to the GIS capabilities of MicroStation and Bentley Map. The class will cover coordinate system setup and transformations (including grid to ground transformations), working with shapefiles and georeferenced imagery, topology editing and cleanup, and thematic map creation.

## Document Conventions

Several conventions are used throughout this document to indicate actions to be taken or to highlight important information. The conventions are as follows:

<u>Item</u>	<u>Meaning</u>
<b>Place Text</b>	a command name or a file that you are to select
<b>Tools &gt; Options</b>	a command path that you are to select – usually from the pull-down menus
<b><i>Key in</i></b>	entering data with the keyboard
<i>Document name</i>	style used when referring to another document
<b><u>Note:</u></b> Text information about a command or process that you should pay particular attention to	
<b><i>Emphasis</i></b>	an important word or phrase
1. Numbered Steps	actions to be performed as part of the lab activities
<b>&lt;D&gt; or Data</b>	press the data button on the mouse
<b>&lt;R&gt; or Reset</b>	press the reset button on the mouse
<b>&lt;T&gt; or Tentative</b>	press the tentative button on the mouse

  - Preferences ..... 2-11
  - Lab 2 – Bentley Map Basics..... 2-12**
    - Objectives..... 2-12
    - Start Bentley Map ..... 2-12
    - Create a Map Model ..... 2-13
    - Practice with Map Manager..... 2-14
    - Configure Function Key for Command Manager ..... 2-22
- 3. Interoperability ..... 3-1**
  - Import ..... 3-1**
    - Single File Import..... 3-1
    - Directory Import ..... 3-3
    - Import by Spatial Criteria..... 3-4
    - Import by Search Criteria..... 3-4
    - Change Import Feature Symbology ..... 3-7
    - Importing 3D Graphics ..... 3-9
  - Export ..... 3-10**
    - Single File Export..... 3-10
    - Directory Export ..... 3-11
    - Export Notes ..... 3-12
  - Lab 3 – Interoperability ..... 3-13**
    - Objectives..... 3-13
    - Import ArcView Shapefiles ..... 3-13

Import CSV File..... 3-19  
Export Shapefile..... 3-20  
Export CSV File..... 3-21

**4. Command Manager and Utilities ..... 4-1**

**XFM Feature Editing..... 4-1**

Search..... 4-1  
Data Browser..... 4-2  
Analyze XFM Feature ..... 4-4  
Edit XFM Feature..... 4-5  
Place XFM Feature..... 4-5

**Other Utilities..... 4-6**

Warp ..... 4-6  
Reset Feature..... 4-6  
Attribute Masking..... 4-7  
Rainbow Masking ..... 4-9  
Toggle Print Preparation Toolbox..... 4-9

**Lab 4 – Command Manager and Utilities..... 4-10**

Objectives ..... 4-10  
Practice using the Data Browser..... 4-10  
Search for XFM Features..... 4-14  
Place XFM Features ..... 4-16

**5. Coordinate Utilities ..... 5-1**

**Coordinate Display ..... 5-1**

Input/Readout ..... 5-2  
Design plane readout ..... 5-3

**Grids, Graticules, and Labels..... 5-4**

Geodesic Line (Great Circle) ..... 5-4  
Label Master ..... 5-5  
Grid Generator ..... 5-5  
Grids and Graticules..... 5-6

**Transformations and Warping ..... 5-7**

Warp Setup..... 5-7  
Fence Warp ..... 5-7  
Warp All ..... 5-7  
ASCII Transform..... 5-8

**Custom Coordinate Systems..... 5-9**

Setup Library Location ..... 5-9  
Create Custom Coordinate System ..... 5-9  
Edit Custom Coordinate System ..... 5-9

**Lab 5A – Coordinate Utilities..... 5-10**

Objectives ..... 5-10  
Identify Control Points using the Warp Setup Tool ..... 5-10  
Warp Elements using the Warp Setup Tool ..... 5-13  
Identify Control Points using the Warp Tool..... 5-14  
Warp Elements using the Warp Tool..... 5-17

SERVICES

**Consulting**

We can help you analyze what software to buy, what systems to run, and what equipment and configurations to implement. We can also help establish CAD standards and procedures, develop custom applications, provide ongoing user support, workflow optimization and project assistance.

**Programming**

Maximize your productivity with our custom programming services. Eliminate tedious and repetitive tasks. Reduce errors. Add new functionality. Integrate your Autodesk and Bentley products with other applications.
