

## EnvisionCAD Training File Installation

The delivered executable file is a self extracting zip file that contains the training installer application and the required files for your training class.

1. Save the file to a temporary folder
2. Run the exe file by double clicking on the file
3. In the WinZip Self-Extractor dialog verify the **Unzip to folder** is set to **C:\**
4. Click **Unzip** to extract the files.

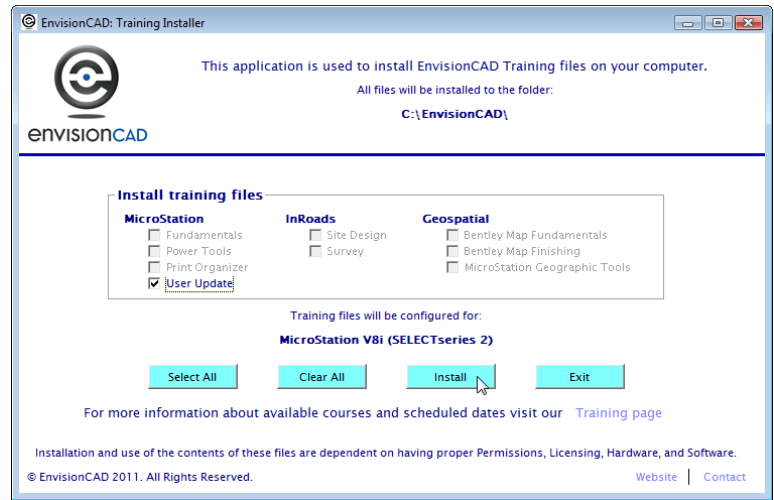

5. The files are extracted to the folder **C:\EnvisionCAD\Downloads\Training Installer**. Open a Computer window and navigate to that location.
6. Double click on the **EnvisionCAD\_Installer.exe** file to launch the application.

**envisionCAD**  
SEE THE POSSIBILITIES

7. In the application dialog the checkbox corresponding to the class files you are installing will be automatically selected. The other class selections will be grayed out.
8. Click on the **Install** button to load the class files.

9. The files will be installed to the **C:\EnvisionCAD** folder. There will also be two desktop icons installed. The **EnvisionCAD Knowledge Base** is a help file containing tips compiled from our previous monthly newsletters. The **EnvisionCAD** icon with the MicroStation logo will launch MicroStation in the EnvisionCAD training workspace.

10. After starting MicroStation with the **EnvisionCAD** MicroStation icon the MicroStation Manager dialog will display with the **User** and **Interface** selections set to **EnvisionCAD**. Change the **Project** setting to the project name that corresponds to the training class files you have installed.
